The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little. As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right. Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

An understanding of psychology—specifically the psychology behind how users behave and interact with digital interfaces—is perhaps the single most valuable nondesign skill a designer can have. The most elegant design can fail if it forces users to conform to the design rather than working within the "blueprint" of how humans perceive and process the world around them. This practical guide explains how you can apply key principles in psychology to build products and experiences that are more intuitive and human-centered. Author Jon Yablonski deconstructs familiar apps and experiences to provide clear examples of how UX designers can build experiences that adapt to how users perceive and process digital interfaces. You'll learn: How aesthetically pleasing design creates positive responses The principles from psychology most useful for designers How these psychology principles relate to UX heuristics Predictive models including Fitts's law, Jakob's law, and Hick's law Ethical implications of using psychology in design A framework for applying these principles

This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as "a good book on rocket stuff...that's a really fun one" by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for

the first time in decades.

Daymond John was inexperienced. He was uneducated. With no formal business training to speak of, he was just a hustler from Hollis with a pipedream of making it big. That was all before he turned the world of fashion on its head. And now, more than a decade after FUBU's wildly successful launch, founder and CEO Daymond John is out to tell the story of the FUBU fashion empire. More than just another amazing American success story, *Display of Power* tells how four ordinary guys from Queens, New York, rose from street corners to corner offices and became the greatest trendsetters of our generation. Daymond John lays it all out on the line--his secrets to success, his triumphs, and his utter failures--to show what it takes to harness and display the power that resides in us all. Part autobiography and part blueprint for success, *Display of Power* is a purely compelling read for anyone who wants something bigger out of life.

From bestselling writer David Graeber—“a master of opening up thought and stimulating debate” (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled “On the Phenomenon of Bullshit Jobs.” It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society’s most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. “Clever and charismatic” (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and “a thought-provoking examination of our working lives” (Financial Times).

Traditional tailoring is a fascinating craft, which has not changed for many centuries, however, the techniques are now known only by a few practising in the best couture ateliers and bespoke tailor's workrooms. Nothing feels quite so luxurious or sophisticated as bespoke clothes, but the tailoring skills they require are often seen to be shrouded in mystery and the clothes therefore only accessible to the rich and famous. This practical book reveals the trade secrets of couture tailoring and brings vintage couture tailoring within the reach of all. With step-by-step photographs and professional tips throughout, it shows how a ladies' jacket is made and thereby introduces a range of fundamental tailoring techniques. These can be used for garments for either gender, as well as other sewing projects: moulding fabric to shape with the iron; employing loose interfacings; hollow shoulder construction; pad stitching canvas; interlining and weighting hems; making tailored and bound buttonholes;... and many more forgotten techniques. Written by a tailor of international repute, *Vintage Couture Tailoring* is dedicated to all who appreciate the highest standard of craftsmanship, and who like using their eyes and hands to produce beautiful garments. Vintage couture tailoring is practised by only a few establishments around the world today and this practical book reveals the trade secrets of couture tailoring. An invaluable guide for professionals wishing to further their skills, and for enthusiasts with an interest in traditional tailoring. Shows how to make a ladies' jacket from preparation through to assembly and reveals the exquisite finishing details that are the hallmark of couture tailoring. Superbly illustrated with 417 colour step-by-step photographs. Thomas von Nordheim is a tailor of international repute.

Bullshit Jobs

According to John Warrillow, the number one mistake entrepreneurs make is to build a business that relies too heavily on them. Thus, when the time comes to sell, buyers aren't confident that the company—even if it's profitable—can stand on its own. To illustrate this, Warrillow introduces us to a fictional small business owner named Alex who is struggling to sell his advertising agency. Alex turns to Ted, an entrepreneur and old family friend, who encourages Alex to pursue three criteria to make his business sellable: * Teachable: focus on products and services that you can teach employees to deliver. * Valuable: avoid price wars by specialising in doing one thing better than anyone else. * Repeatable: generate recurring revenue by engineering products that customers have to repurchase often.

The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

Have you ever said goodbye to someone, only to discover that you're both walking in the same direction? Or had your next thought fly out of your brain in the middle of a presentation? Or accidentally liked an old photo on someone's Instagram or Facebook, thus revealing yourself to be a creepy social media stalker? Melissa Dahl, *New York* magazine's "Science of Us" editor, has experienced all of those awkward situations, and many more. Now she offers a thoughtful, original take on what it really means to feel awkward. She invites you to follow her into all sorts of mortifying moments, drawing on personal experience and in-depth psychological research to answer questions you've probably pondered at some point, such as: * Why are situations without clear rules most likely to turn awkward? * Are people really judging us as harshly as we think they are? * Does anyone ever truly outgrow their awkward teenage self? If you can learn to tolerate life's most awkward situations -- networking, difficult conversations, hearing the sound of your own

terrible voice -- your awkwardness can be a secret weapon to making better, more memorable impressions. When everyone else is pretending to have it under control, you can be a little braver and grow a little bigger.

Fashion may be fabulous, but what price true luxury? With incredible access to the glamorous world of the luxury brand, Deluxe goes deep inside the workings of today's world of profit margins and market share to discover the fate of real luxury. From the importance of fashion owners, to red carpet stars and the seasonal 'must-have' handbags, Dana Thomas shows how far illustrious houses have moved from their roots. Thomas witnesses how these 'luxury' handbags are no longer one in a million, discovers why luxury brand clothing doesn't last as long, and finds out just who is making your perfume. From terrifying raids on the Chinese sweat shops to the daunting chic of Paris workshops, from the handcrafting and economics of early-twentieth century designers to the violent truth behind the 'harmless' fakes, Deluxe goes deep into the world of extravagance, and asks: where can true luxury go now?

FROM THE WINNERS OF THE 2019 NOBEL PRIZE IN ECONOMICS 'Wonderfully refreshing . . . A must read' Thomas Piketty In this revolutionary book, prize-winning economists Abhijit V. Banerjee and Esther Duflo show how economics, when done right, can help us solve the thorniest social and political problems of our day. From immigration to inequality, slowing growth to accelerating climate change, we have the resources to address the challenges we face but we are so often blinded by ideology. Original, provocative and urgent, Good Economics for Hard Times offers the new thinking that we need. It builds on cutting-edge research in economics - and years of exploring the most effective solutions to alleviate extreme poverty - to make a persuasive case for an intelligent interventionism and a society built on compassion and respect. A much-needed antidote to polarized discourse, this book shines a light to help us appreciate and understand our precariously balanced world.
